

A resolution by the

Whitman County Library Board of Trustees

Whereas the Board of Whitman County Library has determined that the Library District has a substantial financial need for 2023, requiring the whole 1% increase. The library needs the additional funds for rising payroll costs including the increase in minimum wage for 2023 and increased unemployment costs. Therefore the Whitman County Library District needs the 1% increase to balance the budget and to continue to provide excellent service to our residents.

15th day of November 2022.
