

A resolution by the  
**Whitman County Library**  
**Board of Trustees**

**Whereas** the Board of Whitman County Library has determined that the Library District has a substantial financial need for 2024, requiring the whole 1% increase. The library needs the additional funds for rising payroll costs including the increase in minimum wage for 2024 and increased unemployment costs. Therefore the Whitman County Library District needs the 1% increase to balance the budget and to continue to provide excellent service to our residents.

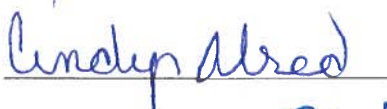

17 day of October, 2023.
